

Senior Care Centers of America Acquires Crozer Adult Day Center and enters into Affiliation Agreement with Crozer–Chester Medical Center

TREVOSE, PA – December 1, 2008 – Senior Care Centers of America, the second largest operator of adult day health centers in the United States, announced today the acquisition of the Crozer Adult Day Center located on the campus of Crozer-Chester Medical Center in Upland, Pennsylvania. Simultaneous with the acquisition, Senior Care and Crozer-Chester have entered into a 10 year affiliation agreement to ensure there is an ongoing commitment to adult day health services within the communities it serves by both organizations.

Consistent with its branding process, the name of the newly acquired center has been changed to **Senior Care at Crozer**. The acquisition of this center allows Senior Care to expand its presence in Delaware County, which will further complements its network of Pennsylvania Centers in Montgomery and Philadelphia counties, along with its network of adult day centers throughout New Jersey.

“The Crozer Adult Day Center and its staff have an excellent reputation for providing high quality care and services to adults in need,” said Jim Donnelly, President and CEO for Senior Care. “We are committed to ensuring a smooth transition so all clients will continue to receive the highest level of care they have come to expect and deserve. The affiliation agreement between Senior Care and Crozer-Chester will give Senior Care the ability to provide adult day health services on the campus of the medical center for a very long time, will enhance and expand the services being provided, and will allow those adults who attend Senior Care at Crozer easy access to other health care services on the medical center campus while having this care coordinated at one location.”

One of the faster growing options in the health care industry, adult day health centers provide a structured daytime program of health and social services and activities in a safe, caring environment, enabling elderly and disabled clients to live at home and remain in their communities.

About Crozer-Chester Medical Center

Crozer-Chester Medical Center, a subsidiary of Crozer-Keystone Health System, is a 388-bed not-for-profit teaching hospital. Crozer-Chester Medical Center was established in 1963 with the merger of Chester Hospital (c. 1893) and Crozer Hospital (c. 1902), and became one of the founding hospitals of the Crozer-Keystone Health System in 1990. Today, the medical center admits nearly 20,000 patients, treats approximately 50,000 Emergency Department patients, and delivers about 2,000 babies a year. Crozer-Chester Medical Center provides a full spectrum of wellness, prevention, acute care, rehabilitation and restorative care to the community.

About Senior Care Centers of America

Since its founding in 1988, Senior Care has developed a growing network of more than 20 adult day health centers located in four states (New Jersey, Pennsylvania, Connecticut and Mississippi). It is currently the second largest provider of adult day health services in the country based on the number of centers owned and operated. The Company is the leading independent provider in its core markets. Each of its adult day health centers enables frail, elderly or disabled adults to live at home and remain independent in their communities while receiving health care and supervision during the day, as well as provide relief and respite for the caregivers.
