*The Premier Provider of  
Adult Day Health Services*

## *Our Philosophy of Care*

To help families successfully manage the responsibility of caring for an elderly or frail adult who is living at home, while enhancing the quality of life for those individuals in need of care.

## What Are Adult Day Health Services?

Adult day health services are designed to improve the quality of life for the elderly and their family members by providing a daily program of health services in an enjoyable, safe, home-like environment.

With a professionally managed adult day health service program, frail adults maintain independence and dignity and caregivers enjoy the peace of mind which comes from knowing their loved one is receiving the appropriate level of care.

Adult day health services are provided at one convenient location and offer the most affordable way to provide ongoing care to frail and elderly adults.

**Funding sources available for adult day health services include Medicaid, Long-Term Care Insurance, VA, PA Options Program, Alzheimer's Grants, various State and County programs, as well as self pay.**

## Medical Care

Our registered nurses provide a wide range of services including daily health monitoring, dispensing of medications and coordination of all health services needed by the individual.

## Recreational Activities

Our programs offer an array of interesting, challenging and fun activities which are professionally designed to promote involvement, companionship, independence and good health.

## Transportation

Transportation can be provided or arranged via handicapped-accessible vehicles to and from our centers, as well as to medical appointments.

*We Care*

## Social Services

We provide comprehensive social services to both caregivers and their loved ones, as well as guidance in utilizing various financial assistance agencies.

## Delicious Meals & Snacks

Healthy hot meals and appetizing snacks are offered daily. We also cater to special dietary needs, and our menu is in compliance with nutritional guidelines.

Ask us about additional services we can provide such as Pharmacy, Lab & Diagnostics, Eye Care, Physical Therapy, Podiatry, Personal Care and Dentistry.
