

**Senior Care Centers of America Welcomes
New Adult Day Health Center into Its Network**

Date: August 23, 2001

CHERRY HILL, NJ – Senior Care Centers of America, the premier provider of adult day health services, is pleased to announce the merger of the Burlington County Adult Medical Day Care Center Inc. into its expanding network of facilities. The center, located in Willingboro, NJ, had served Burlington County for the past 17 years.

"Senior Care is extremely pleased to incorporate the Burlington County Adult Medical Day Care Center into our existing network of programs," said company President James Donnelly. "Through this merger we will continue to provide the high-quality adult day health services which the clients and families of that center have come to expect."

With corporate headquarters in Cherry Hill, Senior Care Centers of America currently operates 11 adult day health centers in New Jersey, five centers in Pennsylvania and two in Mississippi. Senior Care plans to merge the Burlington County Adult Medical Day Care Center's operations into its existing locations in Delran and Marlton, NJ.

One of the fastest growing options in the health care industry, adult day health centers provide a structured daytime program of health and social services and activities in a safe, caring environment, enabling elderly and disabled clients to live at home and remain in their communities.

Founded in 1988, Senior Care Centers of America is committed to developing a network of adult day health service centers which provide a stimulating, fun environment coupled with daily nursing care, health monitoring and improved access to the health care system. Senior Care's programs are the perfect alternative for frail and medically needy adults who need supervision during the day yet do not require 24-hour skilled nursing care.
